THANKSGIVING.

PROCLAMATION BY THE GOVERNOR.
AS A GOVERNOR, we have abundant reason for the exercise of gratitude to the Supreme Being, for the condition of the state, the abundant harvests, the peaceful submittedness of our citizens, and the general quiet and order which we have been favored with during the past year. And as we are now peculiarly residents of these other kindred states, we call upon you to recognize the benevolent source, whence comes every good and perfect gift.

THE GOVERNOR.—I present, Governor of the state, who am hereby signing this day, the twenty-fourth day of November, next, as day of Thanksgiving to ALMIGHTY GOD, And respectfully request the people of Wisconsin to properly observe the same.

L. E. MARSHALL, this twenty fifth day of October, in the year of our Lord, One Thousand Eight Hundred and Fifty Two.

LEONARD J. FARWELL,
CHARLES D. HARRISON, Secretary of State
For the Governor.

W. W. LEITER, Deputy.

GROUNDS OF THE WOUNDED.

The Free Democrat indulges in another column of invectives over Mr. Durkee's defeat and still clings to the comforting belief that the Sentinel did it. But it declines to publish the vote, and for the very sufficient reason that the figures give the lie to its so-called "facts." Nay, it not only suppresses, but *deliberately misrepresents* this vote, in the vain hope of strengthening its case. Hear this reliable organ:

Says the Fifteen Hundred less votes in the District that Pierce has, and Durkee had Four Thousand and Four Hundred less votes, Wells has! There is a John J. Pease for you!

Look at the figures! Scott 5192, Pierce 5182, Majority for Pierce three thousand and six, instead of fifteen hundred" as the Free Democrat *boldly* represents it. What possible end can be served by such wilful and deliberate fabrications?

And as to the predictions. Very true, we were mistaken in our estimate, and as was the Free Democrat. That paper expected the like of Mr. Durkee being defeated; predicted that he would lose 1500 votes to Mr. Durkee's 1000 in this country; asserted that he could beat Mr. Wells 2500 or 3000 out of his county, and that whereas supposed Mr. Wells could overcome that majority here was "fit for a Lunatic Asylum"; and indulged in sundry other invocations, none of which came true. "There's a Black Swan of which came true."

But argues this despairing and unscrupulous print:

"The fourths of the whigs in this District would have voted for Durkee, had they understood what was being played, and had they not been deceived by the Sentinel."

Admitting, for a moment, the Free Democrat's premises, Mr. Durkee would still have been defeated. The Whig vote of this District was just about 4700—adding threethirds of this to Mr. Durkee's and one-fourth to Mr. Wells' vote, and the totals would stand—Wells 9395, Durkee 9112. So that Mr. Durkee would have been beaten again. As to the Whigs being under any obligation to vote for Mr. Durkee, the idea is simply ridiculous. They had an unexceptionable candidate of their own, whom every consideration of policy, principle and party fidelity constrained them to support, and more than three-fourths of the whigs of the District stuck to him good fellowship to the last.

Finally, whence the Free Democrat? We would complain of the Sentinel for coming out openly for Wells, or for urging whigs to vote for Durkee, if it had done so honorably. But we complain of its deceiving the Whigs and playing a double game."

This is the mere repetition of a lie we have already exposed and nailed to the counter. The Sentinel played no double game, nor attempted to deceive anybody. Whig, Democrat, or Free Soil, as to the issues, or the chances in the District. On all occasions, to friends and opponents, in public and in private, we held out one hand and gave and gave, but to one cause, to-wit: that which was in the District ought to vote for Henry S. Durkee, and that if every friend of Scott and the Tariff did so his election was sure. That was our own conviction and we spared no pains to make all our friends think that as we did in the pionies. And against that *not the Free Democrat* may spend as many lies as it can find space from now till next Christmas.

A Quaker Preacher.—The following article, from the Savannah (Ga.) Republican, of Oct. 29th, presents a curious state of things:

"There are some fifteen thousand who are anxious and eager to make a descent on Cuba; and, in almost every considerable city and town in the Union, bands of patriots and soldiers are a favorite opportunity, and the appearance of a leader, to march onward. Nor are these destitute of the means necessary to the accomplishment of their purpose. From good authority, we learn that the number of men sufficient to equip an army of ten thousand men, at a moment's warning, independently of that, a large fleet will be ready to sail for Cuba, and a small force will be sent to New York to help them. The number of ships of all kinds of all descriptions, amounting to upwards of a million of dollars, and in every region from Hudson's Bay to Cape Horn, Philadelphia, Boston, New York, &c., are now entirely blockaded. The most active on Cuba will be found something more than a million of dollars, and our desire must be to seize every victory."

It was stated a fortnight ago, that the Admire Department had issued a warrant to lay in the harbor, to detect and arrest suspected expeditions, that were on the eve of embarkation. We believe the report was not well founded, but if it were, and we were compelled to co-operate with our navy, we should attempt to impede the sailing of an expedition bound for Cuba, also would find himself resisted by a force which she could not easily meet. Mr. Wardwell Talmage, however, said it but it was a statement of a Cuban expedition.

"It is asked, if Spain has done *anything* to prevent our men, or us in our interest, from landing?"

"She has, and that which *she* gives, to seek possession of Cuba. We mean that of, or that the *Spanish* can sit, even denied this power. In God's two faces!" exist only in the discredited brain of the Wiscons.

John Scott's Two Faces.—During the Presidential canvass, the General of the North, constantly represented Gen. Scott as favorable to the principles of the Free Soil party. But the following letter from Gen. Scott to Gen. Hamilton, and which was published in *Louisiana* on the eve of the election, put an end to all such suppositions. Wisconsin:

"The letter in question is a simple avowal of Gen. Scott's adherence to the principles of the Free Soil party, and the author of the 'two faces' is a stranger who gives to seek possession of Cuba. We mean that of, or that the *Spanish* can sit, even denied this power. In God's two faces!" exist only in the discredited brain of the Wiscons.

THE MORMONS FOR PIERCE.—In our enumeration of the Allies of the "Pierce & King" party, in the recent contest, we forgot one distinguished division. The Mormons, it appears, were all for Pierce, and were marshaled to the confederacy by a person who was prophetically named. Here is his letter in the Detroit Free Press of last day last:

SAINT JAMES, Beaver Island, Nov. 2.
Our election is going on. The voting is *universal*.—Many of the Mormons, Mississ. & St. Louis (Mo.), Santa Fe, Laramie district, and James J. Strong (Iowa) Representative, New Mexico, to which this county (Emmett) is attached, the vote of which is given to Pierce. We cannot—will not—say anything about politics—and those who always vote their party ticket."

vote of 1848 and 1852.

We leave a comparative statement of the votes cast for Electors and Congress, in this Congressional District, at the two Presidential Elections, 1848 and 1852. It shows very clearly the aggregate increase of the whole vote, as well as the comparative gain of each party.

Elections. Congress. F. S. W. F. S. W. F. S.
1848. 4391 4351 4436 4502
1852. 5192 4386 4318 5689
Total. 9452 8697 4717 5952

Total vote in 1848, 15,151—abst. in 1852, 17,778.

The democrats under the lead of the Free Soil and the Whigs next. That of the Free Soil is small. In 1848 the Whigs were at the bottom of the poll. In 1852 they have come in second best, beating the Free Soilers over 500 in the District, while in 1848 the Free Soilers beat them over 450. One more try in '52 will place the Whigs in third, the head of the poll in this Congressional District.

WISCONSIN.—The vote of this County on Electors and Congress is thus officially reported:

Electors. Congress. F. S. W. F. S. W. F. S.
1848. 4391 4351 4436 4502

CHICAGO JOURNAL.—Our friends R. L. and C. D. Wilson, of the Chicago Journal, have associated with themselves in the management and proprietorship of that paper, Mr. Roscoe H. Morris. This will be a valuable accession to the Journal, and will ensure for it, we hope, a still larger measure of usefulness and prosperity than it has hitherto enjoyed.

DOCTOR COURT.—Returns from 18 towns, made the electoral vote stand, Pierce 1409, Scott 905, Congress—May 1851, Shaffer 1022, Milwaukee 15.

ATROCIOUS ROBBERY.—Daniel E. Sickle, and a gang of Lococeos, buried one of the subpostoffices in New York City the day before the election, knocked down the Postmaster and assautant, and carried off a large number of circulars which had been deposited there for circulation.

CUBA.

The Spanish possessions have been growing for the last three hundred years, and judging from the conduct of the Spanish officials and their subjects, it is evident that the size of Cuba will have an island about the size of Cuba within the next four years.

Now that the victory of the democracy is certain, their papers are boldly announcing the policy with which our country will be pursued for the next four years? By constantly putting them in the mouths of the degenerate Spaniards who grow more impudent—if by violating stipulations, by encouraging the fitting out of expeditions against Cuba—these filibusters can god Spain into a more open course of hostility, their aim is accomplished—a war ensured. With war, comes trouble with other European powers, and as a matter of course.

Do we need Cuba? Not at all. Do we need the addition of some hundreds of thousands of half-caste Spaniards to our population? Not at all. Do we need an addition of some hundreds of thousands more slaves to our number, already abundantly large, and a slave to every country? Not at all. Do we need another slave state? No, no.

Then why this hankering after Cuba, to the neglect and neglence of national honor and home interests? Why, for nothing at all, except to gratify the boasting, rampant, crazy spirit of wild Democracy—that democracy which is breathed in the Five Points to New York—in the streets of New Orleans—which is the most proud and vainglorious of all the cities of the world.

Admitting, for a moment, the Free Democrat's premises, Mr. Durkee would still have been defeated. The Whig vote of this District was just about 4700—adding threethirds of this to Mr. Durkee's and one-fourth to Mr. Wells' vote, and the totals would stand—Wells 9395, Durkee 9112.

THE CINCENT CITY AT HAVANA.

New Orleans, Nov. 6.

As the *Cincenet* City appeared at Havana she was not by the Pilot, who refused to take her because Smith was on board. Capt. Davenport paid no attention to them and taking the responsibility, proceeded to the usual anchorage.

The Captain of the port shortly after visited the steamer and would allow no communication with the shore, because Smith was on board. And if the Captain would allow him to go ashore, he would give him the information and request him to land, but on other persons.

Capt. Davenport, then exhibited a letter from the American Consul, just received, in which assurance was given to him the difficulty was fully settled at the interview between the Captain General and Judge Court.

The Captain of the Port replied that the information and request and the difficulty was not yet settled, but the officials and regular passengers would be allowed to land this occasion.

He advised Capt. Porter, that she must be permitted to communicate with the shore. Capt. Porter also said that the Spanish Minister at Washington had written the Capt. Gen'l, informing him of authority of acting Sec'y of State, that Porter Smith would be pro-

moted from major to lieutenant and the permission to land passengers along made.

Capt. Davenport refused to permit them to come on board until satisfied. American consul had been fully apprised of condition of affairs at this state of proceeding.

The Captain of Port returned with authority from the Capt. General for all the passengers and others to land except Smith, who was specially prohibited on any consideration, and repeated what he announced, that if Smith returned to New York, the Steamer would receive the second consultation with Capt. Gen'l, previous to which he gave officer stationed at New York the right to land passengers along.

Capt. Davenport answered that Smith was a passenger from the U. S. and could go where he pleased without hindrance or interference on part of Govt. Government. Capt. of Port then had the second consultation with Capt. Gen'l, previous to which he gave officer stationed at New York the right to land passengers along.

The Captain of Port, receiving the letter, went aboard and having consultation with Capt. D., in course of which he informed him that permission had been obtained for passengers in transit to land in consequence of which these passengers went ashore, the others remaining on board.

Members of the crew of Drake and Morales, officers of the *Cincenet* City, made their appearance and stated on authority, that if Smith would address a letter to the Captain General, desiring the change against him, the difficulty would be adjusted. The Captain replied that he would, under no circumstances, suffer any officer under his command, to make any communication on the subject to the Cuban authorities.

The Capt. C. therefore ran up her flag and started off for New Orleans.

Baltimore, Nov. 9.

The New York *Courier* learns from an un-named source that a Cuban expedition is in formal state of preparation. The enemies have taken the steps not to violate the neutrality law. All arms and ammunition obtained are obtained abroad in large quantities and deposited in a depot outside of the U. S.—nothing purchased in this country. The men will leave as immigrants unarmed from different ports. All their measures are taken with the utmost circumspection.
